

About Us

Accelerate4KIDS® is a 501(c)(3) nonprofit that aims to prepare K-12 Detroit youth in under-resourced communities for 21st Century opportunities in computer science and STEM. We provide quality technology education including computer science, robotics, game design and digital arts, while teaching 21st Century skills like creativity, critical thinking, collaboration, communication and social emotional learning. We believe our unique STEM programs will develop kids to become tomorrow creators and leaders.
