

## About Us

Accelerate4KIDS™ is a 501(c)(3) nonprofit that aims to prepare K-12 youth in underserved communities for 21st Century opportunities in technology. We provide quality technology education including computer science, robotics, game design and digital arts, while teaching 21st Century skills like creativity, critical thinking, collaboration, communication and social emotional learning. We believe our unique STEM.org™ Accredited programs will develop kids to be adaptable to become tomorrow creators.
